# Milestone Connect

Unique customer resource center

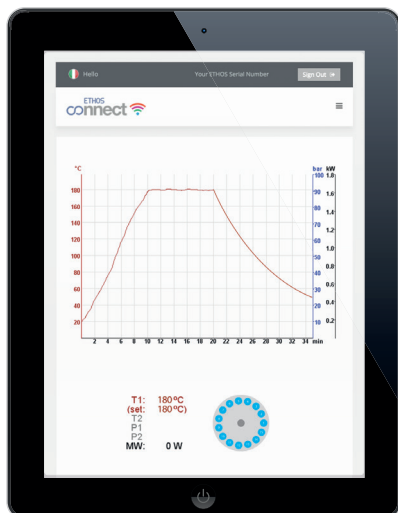

## Unique web-based application

Milestone Connect is a unique feature for your best-in-class system that puts Milestone 30-years of applications experience at your fingertips. By choosing ETHOS UP, ETHOS EASY, UltraWAVE or DMA-80, you will get exclusive access to the knowledge and experience of the Milestone Application Team: continuously updated application notes, library

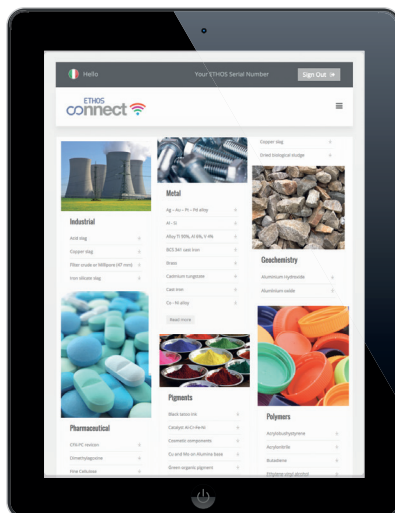

of scientific papers, video tutorials, system manuals at any time – 24/7. The Milestone Connect can remotely monitor the operation of your microwave digestion system or direct mercury analyzer through your desktop, tablet or smartphone device, thus enhancing your sample preparation or analysis procedure.

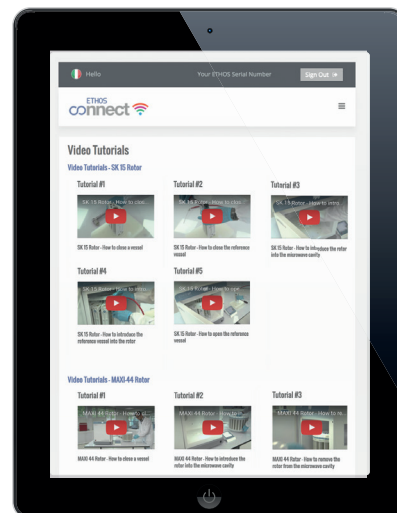

# Milestone puts 30-years of experience in sample prep at your fingertips.

ETHOS UP remote control

Video tutorials

Applications library

 <b>Application Book</b> Review all relevant Application Notes for your Milestone system.	 <b>Reports</b> Application reports provide analysis results of different matrices.	 <b>Papers</b> Get all the scientific publications relevant to your Milestone system.	 <b>Quick Guide</b> Get your Quick Start Guide to readily install your Milestone system.

## Follow these steps to tap into unlimited resources!

1. Go to **www.milestoneconnect.com**
2. Register with username and password written on the Connect Card
3. Update your password
4. Enter the IP address of your instrument to enable remote connectivity (not required to utilize all other Milestone Connect resources)

*By adding the IP address of the instrument, you will be able to remotely monitor and control the instrument from outside the laboratory. Milestone Connect works on various external devices such as a PC, tablet or smartphone.*
